

## Instapak Foam Packaging Return Program

### What is this program?

Sealed Air Corporation, the company that developed the Instapak foam, has a return program for Instapak polyurethane foam-in-place packaging. The Instapak Foam Return Program reduces the amount of waste going to landfills. If participation in this program is not feasible for your company, then Instapak foam may be disposed of with ordinary waste.

### What is Instapak Foam-in-Place Packaging?

This packaging material is comprised of creamy, yellow polyurethane foam encased in a silver or pink polyethylene film. The cushion (both foam and film) can be returned to Sealed Air Corporation.

### How do I participate?

- Sealed Air Corporation has established 25 return centers worldwide for return of Instapak foam packaging. The cushions may be returned to the locations listed in Table 1.
- Once you have located the return center nearest you, call to ask about any special shipping instructions.
- If you have any questions, you may contact Sealed Air Corporation at 1-800-982-6197 or go to their website at [http://www.sealedair.com/enviro/recycle\\_instapak.html](http://www.sealedair.com/enviro/recycle_instapak.html).

# Instapak Foam Packaging Return Program

## What do I do?

Please ship the cushions prepaid (CODs will not be accepted) to the location nearest you, **attn: Foam Return Program**. If you prefer to drop the material off, please call the site in advance.

- The cushions may be bagged, baled or boxed.
- The foam must be clean, dry and not adhered to any corrugated (cardboard) material.
- Some recipients collect the foam in the largest available box that does not incur "oversize" charges through UPS or RPS and compress as much foam as possible into the box before returning.
- In addition to Sealed Air Corporation's return locations, some local packaging stores accept the material for reuse, especially if the size of the individual cushions is not overly large. Check for local acceptance.

## More Information

This service is part of Kodak's Printer's EnviroServices Program (PEP). Helping customers with environmental concerns and compliance is a major commitment of Kodak. PEP consists of a comprehensive range of environmental and safety products and services specially designed to allow Kodak's Graphic Communications Product customers to meet their environmental, safety and health objectives in a cost-effective manner. For more information, go to [www.kodak.com/go/kes](http://www.kodak.com/go/kes) and look under Graphic Communications Products.

## Disclaimer of Warranties and Limitation of Liability

Some services to be provided under this offer are to be performed solely by independent vendors from whom Kodak's Graphic Communications Group does not receive fees. There are no warranties, express or implied, in connection with the provision of this service, including but not limited to the implied warranties of merchantability and fitness for a particular purpose. The user shall determine the suitability of these services for the intended use, and the user assumes all risk and liability if these services are not fit for the particular purpose intended. Kodak shall not have any obligation or liability to any user or other third party arising out of any services performed by an independent vendor, pursuant to this offer. The user shall indemnify, defend and hold Kodak harmless from and against any and all claims, costs and liabilities arising directly or indirectly from the user's use of these services. The services offered in this brochure are subject to change and/or discontinuance without notice.
