

An integral part of your  
color-accurate proofing  
solution

**Kodak**

Matchprint

Inkjet Media

The enhanced **Kodak Matchprint** Inkjet Media portfolio offers one of the widest selections of optimized media in the graphic arts industry. **Matchprint** Inkjet media are suitable for a broad range of proofing applications, providing outstanding results with any supported printing device.

## Premium color proofing

For optimized proofing from your **Kodak Matchprint** Inkjet System with **Epson Stylus Pro** and **HP Z2100** Printers. Select from a wide range of media types and formats for proofing with **Epson Ultrachrome**, **Ultrachrome K3**, **Ultrachrome K3 with Vivid Magenta**, **HP Vivera** and many other pigment inks.

<p><b>Kodak Matchprint</b> Pro Coated SM240P Media Type 1</p>	<p>A premium 240 g/m<sup>2</sup> semi-matte proofing base designed to meet international color standards such as GRACoL (Coated #1) and FOGRA 39, without need for background tint. High brightness and slightly cool tint provide an excellent match to high quality commercial printing stocks.</p> <p>Roll - 17" x 100' 084-00060A      Roll - 42" x 100' 084-00062A            Roll - 24" x 100' 084-00061A      Sheets - 13" x 19" 084-00064A (Box of 100)</p>
<p><b>Kodak Matchprint</b> Pro Coated SM240P Media Type 3</p>	<p>A premium 240 g/m<sup>2</sup> semi-matte proofing base designed to meet color standards such as SWOP (Coated #3) without need for background tint. Lower brightness and neutral tint provide an excellent match to mid-range and publication printing stocks.</p> <p>Roll - 14" x 100' 084-00157A      Roll - 24" x 100' 084-00056A            Roll - 17" x 100' 084-00055A      Roll - 42" x 100' 084-00057A</p>
<p><b>Kodak Matchprint</b> Pro Press White SM210P Media</p>	<p>A premium 210 g/m<sup>2</sup> semi-matte proofing base with bright white appearance under a range of lighting conditions, providing excellent shadow detail and wide achievable color gamut.</p> <p>Roll - 17" x 100' 084-00045A      Roll - 42" x 100' 084-00047A            Roll - 24" x 100' 084-00046A</p>
<p><b>Kodak Matchprint</b> Pro Publication SM245P Media</p>	<p>A premium 245 g/m<sup>2</sup> semi-matte proofing base for publication proofing. Low brightness and warm tint provide an excellent match to common publication printing stocks.</p> <p>Roll - 14" x 100' 30002543      Roll - 42" x 100' 30002067            Roll - 17" x 100' 30002294      Sheets - 17" x 22" 30002413 (Box of 100)            Roll - 24" x 100' 30002062</p>
<p><b>Kodak Matchprint</b> SM190P Media</p>	<p>A 190 g/m<sup>2</sup> bright white, semi-matte proofing base providing excellent color performance and value for general color proofing.</p> <p>Roll - 17" x 100' 084-00036A      Roll - 42" x 100' 084-00024A            Roll - 24" x 100' 084-00025A</p>
<p><b>Kodak Matchprint</b> M150DP Media</p>	<p>An economical 150 g/m<sup>2</sup> economical matte-coated media for single-sided imposition and content proofing.</p> <p>Roll - 24" x 100' 30002505      Roll - 42" x 100' 30002507            Roll - 36" x 100' 30002506      Roll - 50" x 100' 30002508</p>

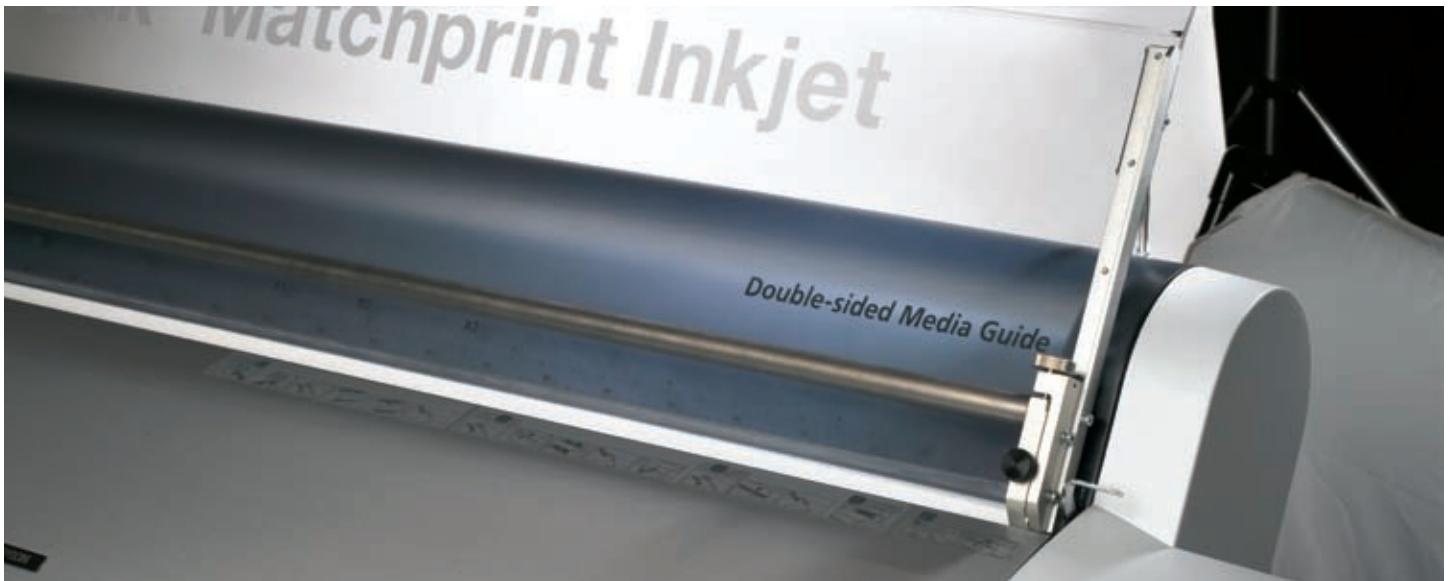

The complete and integrated **Matchprint** Inkjet System provides outstanding workflow connectivity, innovative calibration and screening technologies and the confidence of Certified Processes from Kodak, delivering reliable color accurate proofs.

## Content/imposition proofing with dye and pigment inks

For optimized proofing from your **Kodak Matchprint** Inkjet System with **Epson Stylus Pro** and **HP Z2100** Printers. Select from a wide range of media types and formats for proofing with **Epson Ultrachrome**, **Ultrachrome K3**, **HP Vivera** and many other pigment inks. These papers are also suitable for dye inks.

<b>Kodak Matchprint M120DP Media</b>	<p>An economical, 120 g/m<sup>2</sup> economical matte-coated media for single-sided imposition and content proofing.</p> <p>Roll - 24" x 100' 30002501 Roll - 36" x 150' 30002502 Roll - 42" x 150' 30002503</p>
<b>Kodak Matchprint M96DP Media</b>	<p>An economical, 96 g/m<sup>2</sup> quality matte proofing media with high brightness and excellent feed characteristics. A reliable solution for single-sided content and imposition proofing.</p> <p>Roll - 17" x 130' 084-00038A Roll - 24" x 130' 084-00006A Roll - 42" x 130' 084-00007A</p>
<b>Kodak Matchprint 2-Sided M100DP Media</b>	<p>A 100 g/m<sup>2</sup> double-sided matte media designed specifically for imposition proofing. Base paper and matte surface coating are specifically formulated for reduced bleed-through, improved image quality and rapid drying times. Reliable feed characteristics make this an ideal choice for double-sided imposition proofing. For optimum imposition proofing, Kodak recommends the Double-Sided Media Guide option for <b>Epson Stylus Pro</b> 9600/9800/9880/10600 Printers.</p> <p>Sheets - 22" x 30" 084-00009A (Box of 100) Sheets - 32" x 42" 084-00010A (Box of 100)</p>

Only Kodak offers unique tools for highly accurate double-sided proofs from leading **Epson** Printers. Our software and double-sided media guide are all you need to achieve industry-leading back-to-back registration.

## Recommended operating temperature and humidity

40 to 60% relative humidity (RH), and 18 to 27°C (65 to 80°F) are recommended for optimum performance. Operating in conditions below 30% or above 60% RH may result in excessive media curling and unsatisfactory performance. Please allow additional drying time before handling proofs in high humidity conditions.

## Drying

All **Matchprint** Inkjet Media are formulated for rapid drying, though drying rates will decrease where temperatures are lower and humidity is greater.

## Storage conditions

If storage does not meet recommended operating conditions, allow the media to acclimate for 48 hours before opening.

## Handling considerations

- Avoid handling the image area (handle from the edges). Dirt and oil from fingerprints may adversely affect the quality of the image
- Avoid direct contact with water
- Avoid high-humidity conditions
