

Roll Paper Fiber Core Recycling Program

The Paper-Core Recycling Program offers a simple, convenient, and cost-effective way to recycle roll-paper fiber cores from the prepress process.

Benefits

- Reduces your solid waste management and disposal costs.
- Helps you comply with existing and future recycling regulations and legislation.
- Adds value to your business that you can market to your customers. Eighty-nine percent of consumers say the environment is a factor in purchasing decisions.

How to Participate

- Ship paper cores in corrugated boxes. (Plastic and metal should NOT be included with the cores.) Shipments that contain materials other than paper cores will not be accepted and will be returned to you.
- Ship the paper cores to the Sonoco Products recycling location nearest you. (Shipping costs are at the printer's expense and must be pre-paid.)
- To make arrangements for full truckload shipments, call Sonoco at 1-843-383-7000.
