## Scan Station 500

## Remote administration functions for the **Kodak** Scan Station 500 Built to give administrators remote control

Kodak has streamlined administration of your networked Scan Station 500 devices to save time, provide greater control, enhance security, and make your life easier. Now take advantage of a host of powerful remote administration functions for the **Kodak** Scan Station 500.

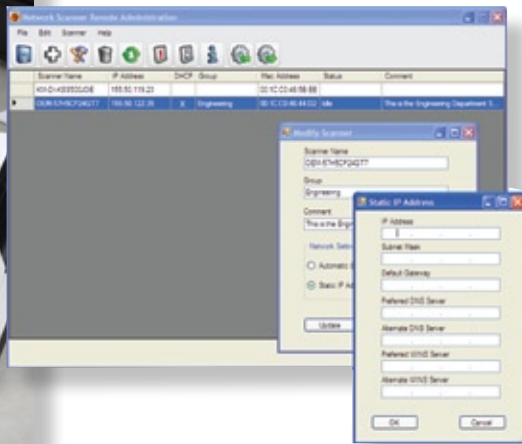

### Remote management of one, some or all of your Scan Station 500 devices

Using a single, easy interface, you can remotely access and manage all Scan Station 500 scanners on your LAN or WAN. It's an ideal solution for those with multiple networked units, whether they are across the hall or around the globe.

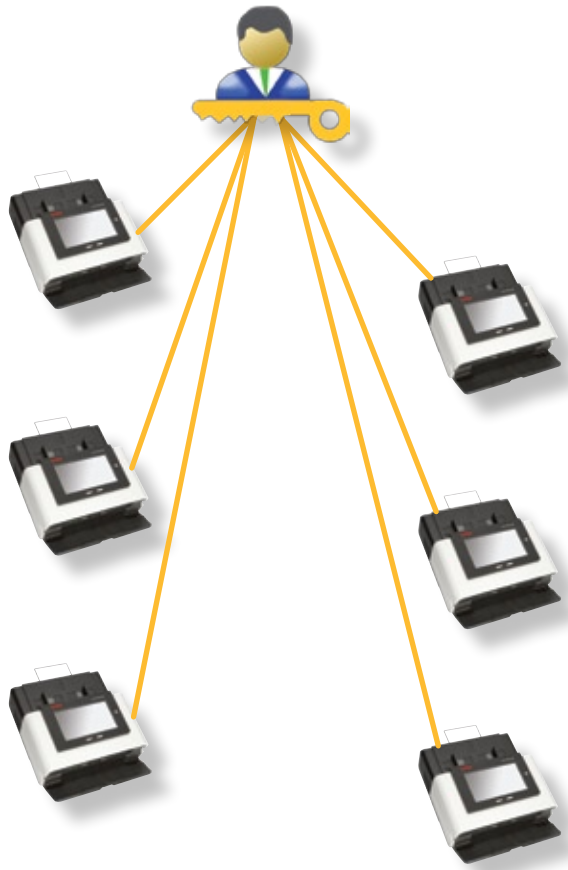

- Create and manage lists of Scan Station 500 devices >>>>
- Group and classify managed devices
- View the status of managed Scan Station 500 units
- Update the configuration and embedded software of one, some, or all managed devices
- Upload commonly used settings, configurations, and destinations to all units in a single step

Now, for example, when new firmware is rolled out, you can upload it to every Scan Station 500 in your network, quickly and conveniently.

Scanner Name	IP Address	DHCP	Group	Mac Address	Status	Comment
OEM-C4JM041K7S6	155.50.82.91	X		00:1C:C0:CA:8F:E3	Idle	
OEM-3T2KT3GH1IQ	155.50.121.103	X		00:1C:C0:AA:6E:...	Idle	
OEM-55RWYV0W/...	155.50.93.14	X		00:1C:C0:46:44:84	Idle	
OEM-NQR954FC	155.50.90.14	X		00:1C:C0:45:D5:E2	Idle	
OEM-C6wN54D3S/w	155.50.82.41	X		00:1C:C0:46:48:BE	Idle	
OEM-DN14S4FY7yK	155.50.122.6	X		00:1C:C0:7E:83:77	Idle	
OEM-CSGHwUJSH7F7	155.50.122.34	X		00:1C:C0:5F:4F:F0	Idle	
OEM-1ZJDB8Y0VDV	155.50.128.124	X		00:1C:C0:45:D5:09	Idle	
OEM-4HG9FCQPKJE	155.50.119.99	X		00:1C:C0:71:70:41	Idle	
OEM-BKFI383VKFM	155.50.91.47	X		00:1C:C0:AA:6C:...	Idle	

To register units, simply enter the device name or IP address

## Easy installation and interface, no server required

Installation of the scanner administration software that enables remote administration is simple, straightforward and fast—and doesn't require a dedicated server. In minutes you're benefiting from secure, Web-based administration that's remotely controlled.

## Significant savings, enhanced uniformity

Bottom line: you can save time and money. Unlike other scanner manufacturers who require you to administer setup and updates on a unit-by-unit basis, you're able to implement global changes in one step.

- Cut hours and reduce costs by eliminating the need for local administration on individual devices
- Prevent errors that can occur at remote sites and implement updates/changes simultaneously at every location
- Achieve consistency across your network
- Maintain greater control and security as remote users no longer require access to admin functions

## Get instant administrative access now

Learn more today about all the advantages of remote access and management for your networked **Kodak Scan Station 500** devices.
